Project Initialization and Planning Phase

Date	29 September 2026
Team ID	SWTID-2026-5240
Project Name	EduGenie – Google Gemini Powered Learning Assistant
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A student / learner	Understand difficult academic concepts and get quick answers	Traditional study material may be lengthy or difficult to understand	I need simple, concise, context-aware explanations	Confused and frustrated when I cannot understand a topic
PS-2	A student preparing for an assessment	Check my understanding of a topic through practice	I may not have enough personalized questions for self-testing	A quiz can help me identify what I understand	Unsure about my level of understanding
PS-3	A learner exploring a new subject	Follow a structured learning path from beginner to advanced	I may not know what to learn next or which resources to use	Personalized recommendations can guide my learning	Uncertain about how to continue learning effectively
